

CJC Dashboard Updates

For the Community Justice
Council

June 2023

1

Presented By : Tamarine Cornelius,
Community Justice Council Research Analyst

About the dashboard initiative

Provide data on different aspects of the community justice system, from beginning to end

- Audience is both system stakeholders as well as community groups and members of the public
- A focus on having data up-to-date, depending on data source
- Disaggregating the data to show how different populations are affected
- Made possible by foundational work and data-sharing agreement

Development process

CJC Coordinator and Research Analyst work with the data owners to identify priorities, useful indicators, and appropriate use of the data

- Initial meeting to discuss the process and ideas
- Drafting dashboard
- Iterative feedback from data owner to insure accuracy and improve product
- Approval by CJC
